<b>Subject:</b>	Wellington St E. and Owen St Study
<b>Reference Committee Name:</b>	Executive Committee
<b>Reference Committee Date:</b>	April 1, 2026
<b>General Committee Date:</b>	April 15, 2026
<b>City Council Date:</b>	April 22, 2026

### **Motion for Consideration:**

That staff in Development Services investigate traffic control options at the intersection of Wellington Street East and Owen Street and report back to General Committee.

### **Reason or Rationale in support of the motion:**

This intersection is at the bottom of a significant “dip” in the road of Wellington St. east which reduces sight lines on Wellington when attempting to exit Owen St. Currently there is a 4-way flashing light situated in the dip however it does little to slow down traffic heading east on Wellington and other options such as either a 4-way stop or traffic lights would allow traffic a safer option.

### **Linkage 2022-2026 Strategic Priorities:**

Community Safety
